- (b) The superintendent of the school district.

**(2) State board staff review.**

(a) State board of education staff shall review each school district's program assurance form, conduct on-site monitoring visits of randomly selected school districts, as needed and subject to funding support, and prepare recommendations and reports for presentation to the state board of education: Provided, That, if a school district's initial program assurance form does not establish compliance with the basic education program approval requirements, the district shall be provided the opportunity to explain the deficiency or deficiencies. School districts which foresee that they will not be able to comply with the program approval requirements, or that are deemed by the state board to be in noncompliance, may petition for a waiver on the basis of substantial lack of classroom space as set forth in WAC 180-16-225 and instructional hours offering requirements under WAC 180-18-030.

(b) School districts may use the personnel and services of the educational service district to assist the district and schools in the district that are out of compliance with basic education program approval requirements.

**(3) Annual certification of compliance or noncompliance—Withholding of funds for noncompliance.**

(a) At the annual spring meeting of the state board of education, or at such other meeting as the board shall design-

nate, the board shall certify by motion each school district as being in compliance or noncompliance with the basic education program approval requirements.

(b) A certification of compliance shall be effective for the then current school year subject to any subsequent ad hoc review and determination of noncompliance as may be deemed necessary by the state board of education or advisable by the superintendent of public instruction. In addition, a certification of compliance shall be effective tentatively for the succeeding school year until such time as the state board takes its annual action certifying compliance or noncompliance with the program approval requirements.

(c) A certification of noncompliance shall be effective until program compliance is assured by the school district to the satisfaction of state board of education staff, subject to review by the state board. Basic education allocation funds shall be deducted from the basic education allocation of a school district that has been certified as being in noncompliance unless such district has received a waiver from the state board for such noncompliance, pursuant to WAC 180-16-225 or 180-18-030, or assurance of program compliance is subsequently provided for the school year previously certified as in noncompliance and is accepted by the state board.

(d) The withholding of basic education allocation funding from a school district shall not occur for a noncompliance if the school district has remediated the noncompliance situation within sixty school business days from the time the district receives notice of the noncompliance from the state board of education. The state board of education may extend the sixty days timeline only if the district demonstrates by clear and convincing evidence that sixty days is not reasonable to make the necessary corrections. For the purposes of this section, a school business day shall mean any calendar day, exclusive of Saturdays, Sundays, and any federal and school holidays upon which the office of the superintendent of the school district is open to the public for the conduct of business. A school business day shall be concluded or terminated upon the closure of said office for the calendar day.

(e) The superintendent of public instruction, or his/her designee, after notification by the state board of education to a school district regarding an existing noncompliance, shall enter into a compliance agreement with the school district that shall include, but not be limited to, the following criteria:

(i) A deadline for school district remediation of the noncompliance(s), not to exceed sixty school business days per noncompliance as specified in (d) of this subsection.

(ii) A listing of all the noncompliance areas and the necessary terms that must be satisfied in each area in order for the school district to gain compliance status. This listing also shall specify additional deadlines for the accomplishment of the stated terms if different from the final deadline as specified in subsection (1) of this section.

(iii) A closing statement specifying that a school district's failure to remediate a noncompliance by the determined deadline shall result in the immediate withholding of the district's basic education allocation funding by the superintendent of public instruction.

(iv) The date and the signatures of the superintendent of the school district, the chair of the district's board of directors, and the superintendent of public instruction, or his/her designee, to the agreement. A copy of the completed compliance

agreement shall be sent to the chairperson of the school district's board of directors and the school district superintendent.

(f) In the event a school district fails to sign the compliance agreement within five school business days from the date of issuance or does not satisfy the terms of the signed compliance agreement within the designated amount of time, the superintendent of public instruction shall withhold state funds for the basic education allocation until program compliance is assured based on the following procedure:

(i) For the first month that a noncompliance exists following the conditions as specified in (f) of this subsection, the superintendent of public instruction shall withhold twenty-five percent of the state funds for the basic education allocation to a school district.

(ii) For the second month that a noncompliance exists following the conditions as specified in (f) of this subsection, the superintendent of public instruction shall withhold fifty percent of the state funds for the basic education allocation to a school district.

(iii) For the third month that a noncompliance exists following the conditions as specified in (f) of this subsection, the superintendent of public instruction shall withhold seventy-five percent of the state funds for the basic education allocation to a school district.

(iv) For the fourth month, and every month thereafter, that a noncompliance exists following the conditions as specified in (f) of this subsection, the superintendent of public instruction shall withhold one hundred percent of the state funds for the basic education allocation to a school district until compliance is assured.

(g) Any school district may appeal to the state board of education the decision of noncompliance by the state board of education. Such appeal shall be limited to the interpretation and application of these rules by the state board of education. Such appeal shall not stay the withholding of any state funds pursuant to this section. The state board of education may not waive any of the basic education entitlement requirements as set forth in this chapter, except as provided in WAC 180-16-225 or 180-18-030.

(4) The provisions of subsection (3)(f) of this section shall not apply if the noncompliance is related to the district's fiscal condition and results in the implementation of a financial plan under RCW 28A.505.140(3).

(2) Exclude preparation and planning times from the computations for all FTE classroom teachers.

(3) Include in the above computations only the time certificated employees are actually instructing students on a regularly scheduled basis.

**(2) Annual school building approval.**

(a) Each school in the district shall be approved annually by the school district board of directors under an approval process determined by the district board of directors.

(b) At a minimum the annual approval shall require each school to have a school improvement plan that is data driven, promotes a positive impact on student learning, and includes a continuous improvement process that shall mean the ongoing process used by a school to monitor, adjust, and update its school improvement plan. For the purpose of this section "positive impact on student learning" shall mean:

(iv) Parent, family, and community involvement, as these factors relate to having a positive impact on student learning.

(3) Nothing in this section shall prohibit a school improvement plan from focusing on one or more characteristics of effective schools during the ensuing three school years.

(4) School involvement with school improvement assistance under the state accountability system or involvement with school improvement assistance through the federal Elementary and Secondary Education Act shall constitute a sufficient school improvement plan for the purposes of this section.

(5) Nonwaiverable requirements. Certification requirements, including endorsements, and the school improvement

plan requirements set forth in subsection (2) of this section may not be waived.

**WAC 180-16-225 Waiver—Substantial lack of classroom space—Grounds and procedure.** (1) **Grounds.** The state board of education may waive one or more of the basic education allocation entitlement requirements set forth in WAC 180-16-200 through 180-16-220(1) only if a school district's failure to comply with such requirement(s) is found by the state board to be caused by substantial lack of classroom space.

As a condition to a waiver based on substantial lack of classroom space the state board will consider and a school district must demonstrate, at least, that the facilities of the school district do not contain enough classroom space or other space that can reasonably be converted into classroom space, and that necessary classroom space may not reasonably be acquired by lease or rental to enable the district to comply with the referenced entitlement requirements.

(2) **Waiver procedure.** In order to secure a waiver pursuant to subsection (1) of this section a school district must submit a petition together with a detailed explanation and documentation in support of its request not later than thirty days prior to either:

(a) The state board of education meeting immediately preceding commencement of the school year; or

(b) The March (or such other meeting as the state board shall have established) meeting of the board at which the board will consider certifications of compliance and noncompliance with these entitlement requirements.

A school district that can reasonably foresee an inability to comply with entitlement requirements by reason of substantial lack of classroom space should petition for a waiver as early as the state board meeting immediately preceding commencement of the school year in order to allow for the possibility that the request may be denied.

**WAC 180-51-001 Education reform vision.** (1) The state is shifting from a time and credit-based system of education to a standards and performance-based education system. Certain ways of thinking about time must shift in order to support the ongoing implementation of school reform. The board's long-term vision of a performance-based education system includes:

(a) No references to grade levels or linking a student's educational progress to a particular age. Instead, learning is viewed in terms of developmental progress, academically and vocationally, so that while the curriculum may be sequential the student moves through it at her or his developmental pace, regardless of age;

(b) An understanding that in the absence of other important information, a student's grade point average and performance on the Washington assessment of student learning do not provide a complete picture of the student's abilities and accomplishments;

(c) An understanding that our concept of school needs to expand and take into account that education and learning are about connected learning experiences, which can and do occur inside and outside the physical boundaries of a school building; and

(d) An understanding that students do not all learn in the same way (there are multiple learning styles), that teachers do not all instruct in the same way (there are multiple teaching styles and strategies), and these facts suggest that it should be possible to assess students' performance and achievement in multiple ways while maintaining common, high expectations and standards for learning.

(2) Long-term, as the performance-based education system continues to evolve, the state board of education believes that there should be an on-going review of assessment administration issues. The state board envisions a time when state

assessments are administered during one or more assessment windows annually. During these times, students are allowed to take the appropriate norm-referenced or criterion-referenced state assessment based upon the collective determination by the student, the student's parent(s), teacher(s), and counselor that the student is developmentally ready to take the assessment, rather than because the student is a particular age or is in a particular grade.

**WAC 180-51-003 Intent of graduation requirements.**

(1) The state board of education is responsible for establishing minimum high school graduation requirements that appropriately balance:

(a) Statewide public expectations for all graduating students;

(b) High, meaningful, and fair requirements every student can meet;

(c) The unique characteristics of and differing resources among the two hundred ninety-six school districts and over three hundred high schools in Washington; and

(d) Recognition that some students' educational plans may not include college or may include application for admission to a postsecondary institution one year or more after being granted a high school diploma.

(2) In order to support the continuing refinement of the standards and performance-based system of education, encourage and facilitate local innovation, and realize the vision under WAC 180-51-001, it is the intent of the state board of education to enact changes that will:

(a) Align the statewide minimum high school graduation requirements with the goal of the basic education act under RCW 28A.150.210 and the mission of the common school system under WAC 180-40-210;

(b) Allow districts the optional discretion to define and award high school credit based on demonstrated performance that is not tied to a state minimum number of hours of instruction or instructional activities;

(c) Assure that the essential academic learning requirements developed under RCW 28A.655.060 (3)(a) and 28A.655.070(2) are taught in the high school curriculum;

(d) Assure that students are aware of the connection between their education and possible career opportunities as referenced in RCW 28A.150.210(4) and WAC 180-57-090; and

(e) Assure that students are provided the opportunity to effectively prepare for the secondary Washington assessment of student learning and earn the certificate of mastery required under RCW 28A.655.060 (3)(c), recognizing that the certificate of mastery, along with other state and local requirements, represents attainment of the knowledge and skills that are necessary for high school graduation.

(3) It is the state board's view that the creative development and application of integrated curriculum within existing resources will significantly facilitate the implementation of the graduation requirements under WAC 180-51-061. The board strongly encourages districts to:

(a) Implement curriculum that includes courses that incorporate the best applied, theoretical, academic or vocational features as authorized under RCW 28A.230.010;

(2007 Ed.)

(b) Emphasize the integration of academic and vocational education in educational pathways as required under RCW 28A.655.060 (3)(c); and

(c) Consider using the model curriculum integrating vocational and academic education as it is developed by the superintendent of public instruction under RCW 28A.300.235.

[Statutory Authority: RCW 28A.195.040, 03-04-053, § 180-90-105, filed 1/29/03, effective 3/1/03. Statutory Authority: 1990 c 33, 90-17-009, § 180-90-105, filed 8/6/90, effective 9/6/90. Statutory Authority: RCW 28A.02.240, 85-24-056 (Order 23-85), § 180-90-105, filed 12/2/85.]

**WAC 180-90-112 Definitions.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Approved private school" means a nonpublic school or nonpublic school district conducting a program consisting of kindergarten and at least grade one, or a program consisting of any or all of grades one through twelve which has been approved by the state board of education in accordance with the minimum standards for approval as prescribed in this chapter.

(2)(a) "Reasonable health requirements" means those standards contained in chapter 248-64 WAC as adopted by the state board of health.

(b) "Reasonable fire safety requirements" means those standards adopted by the state fire marshal pursuant to chapter 48.48 RCW.

(3)(a) "Minor deviation" means a variance from the standards established by these regulations which represents little or no threat to the health or safety of students and school personnel, and which does not raise a question as to the ability of the school to provide an educational program which is in substantial compliance with the minimum standards set forth in WAC 180-90-160, and which, therefore, does not preclude the granting of full approval.

(b) "Major deviation" means a variance from the standards established by these regulations which represents little or no threat to the health or safety of students and school personnel but raises a question as to the ability of the school to provide an educational program which substantially complies with the minimum standards set forth in WAC 180-90-160, but is not so serious as to constitute an unacceptable deviation.

(c) "Unacceptable deviation" means a variance from the standards established by these regulations which either:

(i) Constitutes a serious, imminent threat to the health or safety of students or school personnel; or

(ii) Demonstrates that the school is not capable of providing an educational program which substantially complies with the minimum standards set forth in WAC 180-90-160.

(4) "Total instructional hour offering" means those hours when students are provided the opportunity to engage in educational activity planned by and under the direction of school staff, as directed by the administration and board of directors, inclusive of intermissions for class changes, recess and teacher/parent-guardian conferences which are planned and scheduled by the approved private school for the purpose of discussing students' educational needs for progress, and exclusive of time actually spent for meals.

(5)(a) "Non-Washington state certificated teacher" means a person who has:

(i) A K-12 teaching certificate from a nationally accredited preparation program, other than Washington state, recognized by the U.S. Department of Education; or

(ii) A minimum of forty-five quarter credits beyond the baccalaureate degree with a minimum of forty-five quarter

credits in courses in the subject matter to be taught or in courses closely related to the subject matter to be taught; or

(iii) A minimum of three calendar years of experience in a specialized field. For purposes of this subsection the term "specialized field" means a specialized area of the curriculum where skill or talent is applied and where entry into an occupation in such field generally does not require a baccalaureate degree, including, but not limited to, the fields of art, drama, dance, music, physical education, and career and technical or occupational education.

(b) "Exceptional case" means that a circumstance exists within a private school in which:

(i) The educational program offered by the private school will be significantly improved with the employment of a non-Washington state certificated teacher. Each teacher not holding a valid Washington state certificate shall have experience or academic preparation appropriate to K-12 instruction and consistent with the school's mission. Such experience or academic preparation shall be consistent with the provisions of (c) of this subsection; and

(ii) The school which employs a non-Washington state certificated teacher or teachers pursuant to this subsection employs at least one person certified pursuant to rules of the state board of education and (c) of this subsection to every twenty-five FTE students enrolled in grades kindergarten through twelve. The school will report the academic preparations and experience of each teacher providing K-12 instruction; and

(iii) The non-Washington state certificated teacher of the private school, employed pursuant to this section and as verified by the private school, meets the age, good moral character, and personal fitness requirements of WAC 180-79A-150 (1) and (2), has not had his or her teacher's certificate revoked by any state or foreign country. (WAC 180-79A-155 (5)(a).)

(c) "Unusual competence": As applied to an exceptional case wherein the educational program as specified in RCW 28A.195.010 and WAC 180-90-160(7) will be significantly improved with the employment of a non-Washington state certificated teacher as defined in (a) of this subsection.

(d) "General supervision" means that a Washington state certificated teacher or administrator shall be generally available at the school site to observe and advise the teacher employed under provision of (c) of this subsection and shall evaluate pursuant to policies of the private school.

(4) If major deviations are found and the private school in its narrative report, supplemented by direct testimony to the state board of education, demonstrates it is not practical to correct such major deviations prior to the commencement of the annual school term but establishes to the satisfaction of the state board of education its commitment to correct such deviation as soon as is practical, the state board of education shall grant such private school provisional approval for the period of time the state board of education determines is necessary to correct the major deviation but no longer than one year.

(5) If unacceptable deviations are found or if the private school fails to comply with corrective conditions within subsection (2), (3), or (4) of this section for minor or major deviations, state board of education approval shall be denied.

## Chapter 180-105 WAC

### PERFORMANCE IMPROVEMENT GOALS

#### WAC

180-105-020	Reading and mathematics.
180-105-040	Definitions.
180-105-060	High school graduation.

#### WAC 180-105-020 Reading and mathematics. (1)

Each school district board of directors shall by December 15, 2003:

(a) Adopt district-wide performance improvement goals using the federal requirements to determine the increase in the percentage of students who meet or exceed the standard on the Washington assessment of student learning for reading and mathematics in grades four, seven, and ten; and

(b) Direct each school in the district that administers the Washington assessment of student learning for grade four, seven, or ten to adopt performance improvement goals using the federal requirements to determine the increase in the percentage of students meeting the standard for its fourth, seventh, or tenth grade students in reading and mathematics.

(2) School districts and schools shall establish separate district-wide and school reading and mathematics improvement goals using the federal requirements to determine the increase in requirements under subsection (1) of this section for each of the following groups of students:

- (a) All students;
- (b) Students of each major racial and ethnic group;
- (c) Economically disadvantaged students;
- (d) Students with disabilities; and
- (e) Students with limited English proficiency.

(3) School districts and schools are not required to publish numerical improvement goals in a grade level for reading and mathematics for 2004 or in any year thereafter for any student group identified in subsection (2) of this section in which there were fewer than ten students eligible to be assessed on the Washington assessment of student learning in the prior year. However, this subsection shall not be construed to affect WAC 180-16-220 (2)(b) or any other requirements for school and school district improvement plans.

(4) Annual performance improvement goals for both school districts and schools shall be determined:

(a) By using the starting point and annual goals established using the federal requirements for determining starting points in the 2003 Washington State No Child Left Behind (NCLB) Accountability Plan.

(b) If the performance improvement goals established by using the federal requirements to determine the increase for assessments administered in the spring of 2003 and each year

thereafter through and including assessments administered in the spring of 2013 are not met, but the other indicator is met [the other indicator for high schools is the graduation goal (WAC 3-20-300) and the other indicator for elementary and middle schools is the unexcused absences goal (Washington State Accountability System under NCLB 2001)] then a substitute calculation may be made. That substitute calculation representing satisfactory progress shall not be less than the sum of:

(i) The percentage of students meeting standard on the assessments administered in the spring of the preceding year for the relevant student group, grade level and subject; and

(ii) The percentage of students who did not meet standard on the assessments administered in the spring of the preceding year for the relevant student group, grade level and subject, multiplied by ten percent.

(c) The performance improvement goals for assessments administered in the spring of 2014 shall be that all students eligible to be assessed meet standard on the Washington assessment of student learning.

(5) School districts and schools shall be deemed to have met the performance improvement goals established pursuant to this chapter if the school district or school achieves the minimum improvement goal required under subsection (4) of this section, even if the school district or school does not achieve the performance improvement goals established by using the federal requirements to determine the increase.

(6) No performance improvement goal for a group in a subject and grade established pursuant to this section shall be used for state or federal accountability purposes if fewer than thirty students in the group for a subject and grade are eligible to be assessed on the Washington assessment of student learning.

**WAC 180-105-040 Definitions.** As used in Title 3 WAC:

(1) "High school" means a public school in the state enrolling students in any of grades nine through twelve.

(2) "Graduation rate" means the percentage of students who receive a regular high school diploma within four academic years of having enrolled for the first time as ninth grade students. Students who transfer to another school less than four academic years after initial enrollment in the ninth grade shall not be included in the calculation of the graduation rate for the school from which the student transfers. Students who become deceased shall not be included in the calculation of the graduation rate for the school last attended. Students who earn a regular high school diploma after their four academic years will be included in additional calculations and reports for the year a regular high school diploma is completed.

(3) "Graduation rate goal" means the expected minimum graduation rate reported in a particular year for the prior year's graduating class. For example, the graduation rate goal for 2006 relates to students in the class of 2005.

(2007 Ed.)

(4) "Graduating class" or "class of" or "cohort" of any particular year means the group of students who are scheduled to graduate in that particular year after having completed grades nine through twelve in four or fewer academic years.

**WAC 180-105-060 High school graduation.** (1) Each school district board of directors shall by December 15, 2005, revise district-wide graduation rate goals for 2006 and each year thereafter and shall direct each high school in the district to revise graduation rate goals for 2006 and each year thereafter, subject to approval by the board.

(2) The minimum graduation rate goals through 2013 shall be as follows for each of the nine groups of students listed in WAC 3-20-200(2):

(a) Sixty-six percent in 2005, one percentage point above the previous year's goal from 2006 through 2009, and three percentage points above the previous year's goal in 2010 through 2013; or

(b) For any student group whose graduation rate falls below sixty-six percent in 2005, the minimum goal for 2005 is two percentage points above that group's graduation rate in 2004, an additional two percentage points per year above the previous year's goal in 2006 through 2009, and an additional four percentage points per year above the previous year's goal in 2010 through 2013, until the rate for that group meets or exceeds the goal described in (a) of this subsection.

(3) Graduation rate goals in 2014 and each year thereafter for each group of students listed in WAC 3-20-200(2) shall be not less than eighty-five percent.

(4) School district boards of directors are authorized to adopt district-wide graduation rate goals and to approve high school graduation rate goals that exceed the minimum level required under this section. However, district-wide and high school graduation rate goals that exceed the minimum level required under this section shall not be used for federal or state accountability purposes.
